Issue two - Autumn 2010

ASHCROFT TRAILERS

We now service light commercial vehicles

At Ashcroft Trailers we maintain our fleet through our own in-house garage. As part of our on-going development we are now providing light commercial vehicle servicing and repairs for all our customers.

We can provide:

- ◆ PSV preparation and testing
- ◆ Commercial roller brake testing
- ◆ Safety inspections and repairs
- ◆ Diagnose faults and repair air brakes systems
- ◆ ABS & EBS repairs

Our qualified technicians can ensure your vehicles are kept to VOSA standards and backed by a prompt and efficient service keeping your vehicles on the road.

DEALS FOR THE AUTUMN

Storage Rates

£10 per day

Conditions apply

Trailer must be for storage purposes only

ASHCROFT TRAILERS

Hire and maintenance solutions under one roof!

Financial reasons why hire is best

- **No financial commitment** - hire can free up capital to grow your core business allowing investment for other activities
- **Increase your buying power** - hiring our assets can remove your liabilities from your balance sheet, therefore improving the financial ratios that your bank looks at when deciding to approve finance facilities

Advantages of hiring a trailer

- **No need to carry large fixed overheads** - hire allows you to link your costs to your level of activity and therefore adjust customer needs as they change
- **Ability to de-hire the trailer when work has slowed** - most businesses go through peaks and troughs. It makes sense not to carry large fixed overheads, hire allows you to link your costs to your level of activity therefore stabilising profitability
- **Hiring gives you access to a variety of trailers** - so when hiring, one trailer can be replaced for another quickly and efficiently therefore minimising the cost of downtime and unused assets

Maintenance

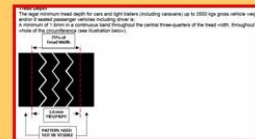

- **Hire will eliminate maintenance costs** - in today's business environment, equipment is changing all the time, increasing productivity safety and efficiency. At Ashcroft Trailers we are constantly investing in new equipment which helps you remain competitive
- **Can improve staff and contractor safety** - we have well maintained trailers that are compliant to VOSA standards and meet the latest legislative requirements

ASHCROFT TRAILERS

Launch new FAQ section on their website

Ashcroft Trailers have launched a new FAQ section on their website to help people in the transport industry with issues such as:

- Speed limits
- Safety inspections
- Tyre laws
- Weights and dimensions
- Vehicle taxing
- Responsibilities and roadworthiness

All this information and more can be found at

<http://www.ashcrofttrailer.co.uk/information/FAQ.htm>

and will be updated on a regular basis.

ASHCROFT TRAILERS

Did you know there is now a free-to-use website for abnormal loads?

ESDAL (Electronic Service Delivery for Abnormal Loads) has been developed to help hauliers save time and to minimise administration costs by easily notifying the relevant road and structure owners, as well as Police and other interested parties, when an abnormal load move is planned.

Since upgrading the service, the number of communications sent to road authorities, structure owners, and Police by hauliers using ESDAL has increased from 14,692 in April to 26,591 in June.

The web-based service was upgraded using feedback from users. Some of the most popular functions requested and now implemented include: A-to-B Mapping, Online collaboration, Simplified vehicle entry and Notification status.

For more information see the ESDAL (Electronic Service Delivery for Abnormal Loads) website.
